ABOUT ME

Hi! I'm Eleanor and I am a recent A-Level graduate changing my career path from humanities to the exciting world of technology. I really enjoy learning new languages and getting stuck into projects! I can't wait to explore a wide range of areas in technology including Artificial Intelligence and of course Software Development. Over lockdown, I have discovered a passion for astronomy. I am also learning how to draw and teaching myself Mandarin.

PROJECTS

JARVER'S CRYPT

<https://github.com/Mayden-Academy/2020-sept-maze-game>

As a Scrum Team, we worked together to build this interactive maze game. For the design and structure of the webpage, we used HTML and CSS. For the animations we used our newfound knowledge of JavaScript to make the obstacles move and make the game harder to win!

ROBOT STORES

<https://github.com/Mayden-Academy/2020-sept-ecommerce>

As a team, we developed this ecommerce site, importing the information of each product using JSON, storing this in a database using SQL and presenting this on the webpage using PHP and CSS.

EXPERIENCE

QUANTUM FOCUS

Intern Applications Scientist | Oct 2020 - present

Testing and analysing semiconductor chips using microscopes and Infrared lenses to check for failures, whilst simultaneously observing the radiation emitted from said chips.

CANCER RESEARCH UK

Retail Stock Clerk | Sept 2019 - Dec 2019

DAUNTSEY'S HOUSE RETIREMENT HOME, DEVIZES

Volunteer | Sept 2018 - Dec 2018

EDUCATION

IO ACADEMY, BATH

Student Software Developer | Sept 2020 - Dec 2020

I recently graduated from iO Academy, an intensive 16-week coding bootcamp, as a full-stack software developer. Throughout this course, I learned HTML, CSS, JavaScript, PHP, worked on 5 team projects, 2 personal projects and became a Certified ScrumMaster (CSM).
